

AeroPan and VasoFrame

Launch of new load carriers for series 390, 360, 321 and 320

AeroPan for Series 390

Speed up your weighing process with the new weighing pans for the series 390.

HIGHLIGHTS

- time saving due to fast stability of the balance (up to 50% faster)
- improved standard deviation

ITEM NUMBERS

350-8728: AeroPan 390 80mm

350-8729: AeroPan 390 90mm

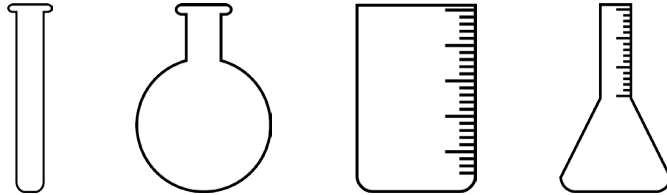

VasoFrame for Series 390 and 360 / 321 / 320

This new laboratory ware holder not only allows for a speeded up weighing process but ensures a safe and ergonomic work process as well. Its flexibility makes secure positioning of various tare containers easy.

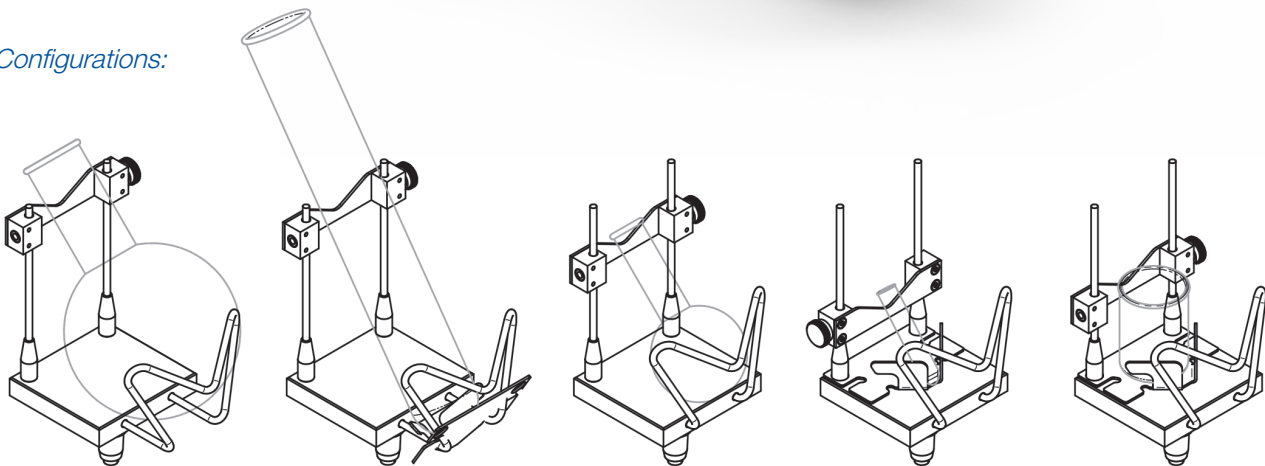

HIGHLIGHTS

- weighing directly into the desired vessel
- secure placement of different shapes of flasks and tubes
- ergonomic positioning of different kinds of flasks and tubes
- stepless adjustment for flasks of 10-100ml
- avoids transfer errors
- reduces sample loss
- minimizes risk of contamination
- fast stability of the balance
